

Angel Godd-Santana

Principal Cloud & AI Platform Architect

Miami-Fort Lauderdale, FL | U.S. Remote | goddsantana@gmail.com | linkedin.com/in/angelgodd santana | angelgodd santana.me

EXECUTIVE SUMMARY

Principal-level cloud architect with 20+ years in IT and infrastructure, including 10+ years designing and operating Azure environments. Brings enterprise depth across Azure, Azure Government, AWS, GCP, identity architecture, cloud governance, FedRAMP-aware delivery, and AI platform enablement. Known for translating complex security, compliance, and modernization requirements into operational architectures, repeatable governance patterns, and delivery standards.

CORE COMPETENCIES

Cloud Platforms: Microsoft Azure, Azure Government, AWS, Google Cloud Platform, hybrid and multi-cloud architecture, IaaS

Cloud Governance & Identity: Azure Lighthouse, Microsoft Entra ID, IAM, SAML SSO, Azure AD Connect, cloud security, FedRAMP Moderate environments

Platform Delivery: cloud migration, technical architecture, CI/CD, GitHub Actions, Azure DevOps, Terraform, Bicep, Python, automation

AI Enablement: Azure AI Foundry, OpenAI APIs, Gemini, AI-enabled workflow automation, RAG and agent concepts

Leadership: enterprise modernization, stakeholder communication, technical mentoring, cross-functional delivery

PROFESSIONAL EXPERIENCE

Senior Cloud Governance & AI Operations Engineer | Cloud Software Group (formerly Citrix Systems) | Remote | Sep 2018 - Aug 2025

- Led multi-tenant Azure governance and Microsoft Entra ID security integration across commercial and government-facing cloud environments.
- Contributed to Azure Government and FedRAMP Moderate authorization work through identity, governance, and cloud-security patterns.
- Architected cross-cloud identity federation between Azure Government and AWS Gov using SAML SSO.
- Supported enterprise Azure governance across commercial and government-facing client environments.
- Mentored engineers in cloud operations, governance, and AI-enabled workflow adoption.

Founder & Principal | Godd Technologies LLC | Independent practice | Sep 2025 - Present

- Re-established a previously dormant LLC as an independent cloud and AI platform architecture practice in September 2025, after completing a full-time enterprise role.
- Building service offerings, reference architectures, and delivery standards across Azure, GCP, identity, cloud governance, and AI-enabled workflow automation.
- Available for selected U.S.-remote cloud and AI architecture advisory or project engagements.

PROFESSIONAL EXPERIENCE (CONTINUED)

Manager of IT & Cloud Operations | Vertice Technologies | Miami, FL | Oct 2017 - Feb 2018

- Directed a distributed operations team responsible for Azure infrastructure optimization, information-security operations, and legacy-server migration.
- Maintained cloud operating standards for Azure IaaS environments serving private-investor business workflows.

Senior Azure Cloud Systems Architect/Engineer | Campus Management Corporation | Remote | 2011 - Aug 2017

- Architected, deployed, and maintained Azure virtual-machine, on-premises, and private-cloud environments supporting critical internal and customer systems.
- Participated in platform migration, DevOps coordination, technical-support enablement, and secure delivery of education technology systems.

Earlier Technical & IT Leadership Experience | Campus Management Corporation, The Historical Research Center, ReconTrader Corporation | 2000 - 2011

- Progressive experience in systems administration, software architecture, SQL and .NET development, network operations, and IT leadership.

EDUCATION

Master of Science, Computer/Information Systems - University of Phoenix

Bachelor of Science, Business/Information Systems - University of Phoenix

Doctoral coursework in Management of Information Systems - University of Phoenix (39 credits completed; dissertation not completed)

SELECTED LEADERSHIP HIGHLIGHTS

- Azure Government, identity, and cloud-governance experience across regulated and enterprise environments.
- Cross-cloud architecture experience spanning Azure, AWS, GCP, hybrid infrastructure, and secure identity federation.
- Technical mentorship and architecture leadership for cloud operations and modernization initiatives.
